OUR STORY

Mum and now entrepreneur, Kathryn Bricken has a passion for baking. From an early age she understood how food is more than fuel – it is a way of bringing people together and making magical memories. After moving to London, England, Kathryn became famous amongst her friends for baking the best cookies using the finest natural ingredients. She was often asked to make extra dough so that her friends could bake cookies at home. In 2017 Kathryn decided to share her secrets with the rest of the UK... Thus, Doughlicious was born.

Now our goal as a company is to bring the smells and tastes of our Doughlicious products into homes and foodservice providers across the globe.

Kathryn
